

28TH MAY 2019

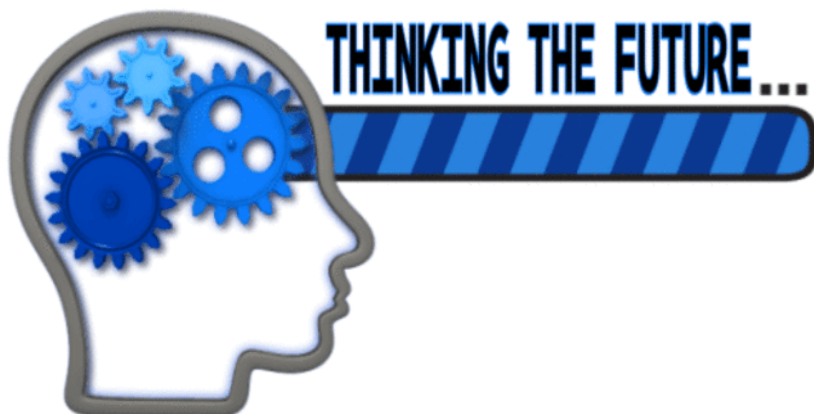

THINKING THE FUTURE FOR ME

Young/ECR Forum for ME Research

London, UK

- A full day cross-disciplinary symposium for current PhDs, postdocs and medical students.
- Aim to bring in new faces and new ideas to biomedical research into Myalgic Encephalomyelitis (ME) and increase international, multi-disciplinary network for new biomedical research talent to assist and encourage researchers in the field of ME research
- An opportunity for developing collaborative biomedical research projects with others
- Research grant opportunities for joint biomedical research project organised by network
- Refreshments and evening dinner is provided
- Register / Submit Abstracts by contacting us
