

FIFTY years ago we could see this!

FIFTY years later let's see an end to ME

IIMER Christmas / New Year Fund Appeal

Myalgic Encephalomyelitis (ME) is a serious, chronic neurological disease. UK Charity Invest in ME Research wishes to establish a Centre of Excellence for ME, a hub for research activity in Europe, and enable a strategy of high-quality biomedical research projects to follow, coordinated and collaborating with other institutes. Please support our Christmas / New Year Fund Appeal.
